Ormrod Educational Psychology Developing Learners

In Human Learning, Ormrod looks at behaviorist, social cognitive, cognitive, constructivist, cognitive-developmental, sociocultural, and contextual theories. Using many concrete examples and specific classroom applications – plus a lucid, conversational writing style that truly speaks to students – the author engages students from the start, and makes the concepts, principles, and theories ...

Instructional design (ID), also known as instructional systems design (ISD), is the practice of systematically designing, developing and delivering instructional materials and experiences, both digital and physical, in a consistent and reliable fashion toward an efficient, effective, appealing, engaging and inspiring acquisition of knowledge. The process consists broadly of determining the ...

Instructional design - Wikipedia

Many students are being left behind by an educational system that some people believe is in crisis. Improving educational outcomes will require efforts on many fronts, but a central premise of this monograph is that one part of a solution involves helping students to better regulate their learning through the use of effective learning techniques.

Improving Students' Learning With Effective Learning ...

Direct Instruction (DI) is a term for the explicit teaching of a skill-set using lectures or demonstrations of the material to students. A particular subset of direct instruction, denoted by capitalization as Direct Instruction, refers to a specific example of the approach developed by Siegfried Engelmann and Wesley C. Becker. DI teaches by explicit instruction, in contrast to exploratory ...
